Admiration of superheroes is not something reserved for little children only. In our world, these heroes abound and flourish and are admired by young and old alike. The last two Marvel movies worldwide grossed more than $2 Billion! However, I don't think their appeal is just about escaping reality to worlds of fantasy. It seems that since comic books and superheroes have become a part of mankind's consciousness, they have served to inspire, encourage, and fascinate the masses.

Most everyone knows that Hebrews 11 is the chapter about the heroes of faith. When you move into the next chapter, it sets up a scene where those heroes make up a “cloud of witnesses” who cheer the reader on as he runs the race of faith. That’s exactly what we hope to accomplish at VBS this year. As we learn about four special “superheroes” of the Bible, our hope is that they will cheer on our children in their young faith, fascinate them with a greater knowledge of God, and inspire them to run this life faithfully.

If you need some invitations to share, grab a few from the foyer or share the church’s Facebook post with a friend. There will be classes for all ages, and children can register now on our website. Be a superhero and bring some children to VBS 2019.

You don’t want to miss it!
